THE "MURPHYS"

Discussed by the Members of the Merchants' Exchange Yesterday, with the "Raisers" Thereof.

Their Virtues as a Moving Cause in Commerce-Much Wind Over the Barrel Question.

It was practically demonstrated yesterday that there is more in a barrel of potatoes han the casual observer would perhaps dresm of in a lifetime. To the uninitiated a barrel of potatoes is nothing more than a barrel of potatoes, upon the pricciple in rolved in the legendary problem as to which a heaviest, a pound of feathers or a pound ead. But to our mutton-or, rather, po-es. A call was made through the Ar-, inviting all persons—producers, deal-buyers and shippers—interested in

oes in any way, to meet at the rooms of Merchants' Exchange at 1 o'clock yes-day afternoon. This call was responded Speed, of the Exchange, was called to the chair, and Secretary Keeling requested to ect as secretary. The chairman explained the object of the meeting to be for the grower and dealer to discuss and agree upon a proper dimension

of barrel to be used in the buying and sell-ing if potatoes in this market, to be hereafenized as the standard potato barrel. way some merchants would heap up the of a barrel; that was a matter that could mly be regulated by the grower selling to be merchant that heaped up the least. He cought that a great many of the difficulties itherto arising between the grower and ealer could be remedied by the establish-

atn him than would be given him in selling and buying.

Mr. L. Lawhorn, of L. Lawhorn & Co.,
moved that two bushels and three packs be
the recognized standard barrel for the measrement of potatoes on this market. Some discussion was had on the motion, among which the propriety of adopting a particular sized barrel, which might be diffiult to obtain from the barrel factories, was

Mesara, H. Furstenheim and J. L. Weltord explained that there would be no difficulty on that point, as the contents of a bar-el could be regulated by the circumference, and not the hight of the staves of which it Friday and Saturday, April 5-6-7.

GRANDENT SPEC : A LE OF THE \* GE!

MESSRS, GALLAGHER & GILMORE, PROPRIETORS. was composed—that is, a barrel could be en-larged or contracted by the addition of a THE DEVIL'S AUCTION! greater or constructing of less number of Some discussion was had about the differences that might arise between the standard adopted for Memphis and that used in other MAFFITT AND BARTHOLOMEW
And the HARTINETII+!

Chairman Speed explained the impossibility of sdoping a barrel that would con-form to all markets. That was not the ob-set of the meeting. What we want to do The Largest and Hest Ever Seen in this country.

3-BEAUTIFUL PREMIERS-3

BLIE, ELISE, PASTA AND ARIFL: the dealing with other markets prices could be governed by the relative quantity contained in the packages in which the potaces are received from other markets. We want a measurement now that shall be united.

transaction to which he was a victim: He ful to witness. The body was taken in charge by the Odd Fellows and Knights of grain at cost it benefited the city more than charge by the Odd Fellows and Knights of Pythias and will be buried by them.

MRS. R. SCHUMAN, parrels. There was no standard barrel to measure by, and he had no remedy. MILLINERY The consequence was he sent no more po-tatees to this market. He could not afford to lose one barrel out of every ten he raised. He thought a standard barrel adopted would establish confidence between the grower and the dealer, and suggested that two bushels 382 Main, Opp. Jackson Block.

Several other growers present concurred with Mr. Hughey about the unsatisfactory manner of handling potatoes heretofore, and WESSON BROS. also as to the size of barrel that should be Mr. Lawhorn explained why he thought

the size mentioned would prove to the interest of both grower and dealer. To the proposition that polatoes should be sold by weight, the chairman stated that the State standard of weights and measures em-318 Main Street, Memphis, Tenn. braced the weight of a barrel of potatoes, but several of jections were urged against buying by weight, among them, that by some pro-DR. W. W. BROOKS, the potato, especially in wet weather, than by other processes and in dry seasons. Mr. Lawhorn urged also the inconvenience that would arise from selling by weight-a great many farmers having the barrels on hand prefered to pack their potatoes at their own houses, and trouble would arise in get-

ing correct weights. After some remarks by others present, in which there seemed to be only one opinion as to the necessity of a standard measureent being adopted, the chairman put the otion of Mr. Lawhora that a standard barel of potatoes should be two bushels and ree pecks, which was unanimously adopted. Merchants' Exchange would indorse the ac-ion of this meeting, by adopting a barrel olding two bushels and three pecks as the tandard measurement for potatoes on this

narket, and the meeting adjourned. PERSONALS.

THE TERRIBLE TENDER

the Chesapeake, Ohio and Southwest ern Engine No. 41 Gathers in Another Victim

n the Person of E. L. Jones, Yardmas ter at the Little Rock Road -A Sad Scrne.

Just before noon yesterday E. L. Jones, a yardmaster of the Memphis and Little Rock road, was run over and killed by switch en-gine No. 41, of the Chesapeake, Onio and Southwestern road, at the foot of Market street. An APPEAL reporter went down by a large gathering of that branch of street. An APPEAL reporter went down the including several prominent planters well as merchants. President John K. gathered what he could from those who witgathered what he could from those who wit-

Joues had flagged a Memphis and Little Rock railroad train and out it on the Memtrain of the Louisville and Nashville, which was coming down. He was walking across the Chesapeake, Onio and Southwestern Mr. Geo. E. Fleece thought it was fair that a larmer; selling and buying potatoes, should receive as great a quantity for a barrel as he was required to give; that it was not equitable was required to give; that it was not equitable. ble to be compelled to give three bushels as a barrel measurement when selling, and then pay perhaps \$1 more in the fall for a barrel of not more than two bushels and a half or three pecks. Some one said something about the way some merchants would heap up the the nature of his hurts that they must prove fatal, and the doctor could do nothing. The unfortunate man lingered two hours in terri-ble agony before death came to his relief.

AN INQUEST WAS HELD oon after by Coroner Spelman, who impan ment of a standard messurement which should be used both in buying from and sell-ing to the producer; no more would be taken John O'Brien and John Madden. The first witness examined was John Larkin, engineer of the Memphis and Little Rock train which Jones had flagged. He said the Chesapeake, Ohio and Southwestern engine was backing up at the rate of eight miles an hour. He heard no signal, either by bell or whistle, from the engineer in charge of the engine which did the fatal work. His statement was corroborated by Bub Morris, the colored fireman who worked with him, and by Wm. Whitney, a switchman of the Memphis and Little Rock railroad. It is said that Jones s the fourth man engine No. 41 has killed in twelve months.

> THE JURY'S VERDICT was that the deceased came to his death by being run over by engine No. 41 of the Chesapeake, Ohio and Southwestern railroad, through the criminal careles-ness of the engineer in charge. The name of the engineer was not stated, as it was unknown to the jury at the time. It was subsequently found that Tom Holland was the man.

ANOTHER VERSION. J. B. McClure, the general flagman at the form to all markets. That was not the object of the meeting. What we want to do which goes for toward exonerating Holland, here is to agree upon the size of barrel that He says Holland blew his which goes for toward exonerating Holland, here is to agree upon the size of barrel that when passing the Chickessw refinery, as is In dealing with other markets prices could customary, and rang his belt as his engine

statiog that it was desirable that the planters should be heard on the subject.

Mr. W. H. Hughey, a prominent potatogrower, who was present, was called upon, and responded in an expression of some very sensible and proctical ideas. Mr. He was a member of Chickasaw Lodge No. His was a step in the right direction. His experience had impressed him that the trade instactory, but he believed the difficulty could be remedied by the adoption of a standard measurement. He gave an instance of a measurement. He gave an instance of a measurement. He gave an instance of a first pool of the standard transaction in which he was a victim: He

He was satisfied that his lot of potatoes measured eleven barrels on the ground, but to his surprise when his wagon returned he bench warrant issued by Judge Greer chargreeived a ticket for only uine and a half received a ticket for only uine and a half light harrel to be a hearing this mornin jail. He will have a hearing this morn ing on an application for bail. Mr. Holmes Cummins, attorney of the Chesapeake, Onio and Southwestern road, will represent him,

TOO MUCH, TAX

Complained of by the Water Company and the Grain and Package Elevator Company.

Provision for Crazy People-Right of Way Granted for the Pigeon Roost Turnpike.

The County Court resumed its session yesterday, and passed upon a number of peti-tions for the reduction of assessments, some of which were granted, while others were referred to the attorney or committees for investigation and report. Among the last named was the following

PLAINT FROM THE WATER COMPANY. o the Worshipful County Court of Shelby

Pelitioner, the Memphis Water Company, respectily shows your wormips that it is a chartered reporation under the laws of the State, and that works and location are in the Fitteenth Criticatrict of Shelby county, and seem to the Taxing-strict of Shelby county. That its pipes extending from its works convey water to the corporate sits of asid Taxing-District, and by means of a stem of pipes, water is distributed throughout ecity to its consumers, and to the public places of public authorities. Its machinery, wells, enues, reservoirs, pumps, houses, grounds and incinal offices are in said Fitteenth Givil Districts and the public places. the city to its consumers, and to the public places and public authorities. Its machinery, wells, engines reservoirs, pumps, houses, grounds and principal offices are in said district, but as before shown, its pipes extend to the city limits and are laid down in many of the streets and alleys of asid city. For the accommodation of its customers it has a rented office in the city limits, but its location, works and blace of business are in said Filteenth Civil District. Petitioner shows further that it is advised it is not taxable on its capital stock, but the shares of stock in the company are taxable, and they are to be assessed in the town, ward or district where the company is located, no matter where the shareholders may reside, some quently the Fifteenth Civil District is the place for assessing said property.

where the shareholders may reside, somequently the Fifteenth Civil District is the place for assessing said property.

Pettiloner jurther shows that the shares of stock in the company are—, amounting in the aggregate to \$27,000. It for ther shows that there is a debt of \$100,000 charged by mortgage on the company and the property, the same being a bona side debt. This sum should be deducted from the assessed value of said stock While the whole of petitioner's property (the shares of siock) should be given in and taxed in the Fifteenth Civil District, yet as part of its pipes—the ame being a portion of its personal property—lie within the city limits, petitioner, upon a fair basis, would not object to dividing the assessment so as to place part in the Fifteenth Civil District and bar in the dividing the assessment so as to place part in the Fifteenth Civil District and bar in the city in the city of Memphis, the division and proportion being arrived at on the basis of the value of its property without the city limits. Petitioner shows that this would make about one-third in the city limits and about two-thirds in the Fifteenth Civil District. Petitioner shows that the present assessment is irregular, erroneous and improper.

First—it does not assess the property in the Fifteenth Civil District, Petitioner shows that the assessment between said district and the wards of the Taxing District upon the basis of the comparative value of its property within and without the city limits. Third—It falls to allow any abatement or deduction for the mortgage debt on the property of \$100,000.

duction for the mortgage debt on the property of \$100,000.

Fourth.—The price or value set upon the stock is excessive and oppressive.

Fifth.—The assessment should not be exceeding \$100,000 after deducting the \$100,000 of debt on the property of the corporation.

Sixth—This value thus ascertained should all be assessed in the Fifteenth Civil District of Shelby county, where the legal situs is: or it should be apportioned between said Fifteenth Civil District and the local territory of the Taxing-District, so as to silot each a part thereof, according to the value of the company's property in said Taxing-District and the value of its property in said Fifteenth Civil District and the value of its property in said Fifteenth Civil District.

Petitioner shows further that the assessment has heretofore been made in the last-named way. By so doing the amount of assessed value remains the same as to the State and county, but it is so divided as to give to the Taxing-District part of the assessme value. Petitioner prays a reference to a committee to examine and report upon the alleged errors and inequalities in the assessment, to the end that the same may be corrected, both as to the place of assessment, manner and the amount thereof. And, as it is not certainly known what changes the regenue and joint stock companies, petitioner prays that the report be delerred until

doner will ever pray, etc.
GANTT & PATTER\*ON,
Solicitors for Petitioner want a measurement now that shall be uniform and equitable between the potatoraiser and equitable between the potatoraiser and the merchant. Mr. Speed concluded by now live, and had just pa-sed his thirty-statiog that it was desirable that the plant-statiog that it was desirable that the plant-station was born in North Wales, where his parents in the communication was referred to Justices Holeman, Moffet and Alex. Jones and the attorney.
